CHAIRMAN'S MESSAGE

P. D. Hinduja Hospital & Medical Research Centre, for the last seven decades has been committed to its mission of providing "Quality Healthcare for All". Starting from a small clinic in 1951 to being one of India's leading hospitals today has been a highly challenging but a very satisfying and fulfilling journey. It was the belief of our founder Shri. P. D. Hinduja that "Healthcare and Education are every Citizen's Birthright". This inspires us every day to provide the best patient centric care.

The hospital has been at the vanguard of technological excellence and an early adopter of technology with many firsts to its credit. We are proud to have on board nationally and internationally recognized doctors, committed to patient care. Our affiliations and collaborations with international centres of excellence, ensure that our patients get the best treatment possible.

Every facility at the hospital has always had a 'Human Touch', a sense of deep empathy towards our patients, which we believe is critical towards the process of 'Healing'. P. D. Hinduja Hospital has zealously guarded its core value of providing ethical and quality care for all, enabling to maintain its leadership status and trust of its patients, for over seven decades.

The hospital also has been providing charitable treatment since inception. It gives free or concessional treatment to poor patients at the hospital and also runs the Serve with Passion Rural Health Programme, under which free healthcare services are provided to the tribal areas in Maharashtra.

A. P. Hinduja
Chairman

With the changing healthcare environment and patient needs, we are adopting new innovative digital healthcare models to provide better, more affordable patient care and to increase our geographical reach. We will be agile and adaptable to the changing environment, but our values of providing ethical quality care and empathy towards our patients, will continue as laid down by our founder.

I would like to thank all our patients and the medical fraternity for the trust bestowed on us and assure you that our hospital will continue to set new benchmarks in medical care and patient centricity.

OUR PHILOSOPHY

MISSION

The mission of P. D. Hinduja Hospital is to create a World Class medical institution by delivering quality medical care to all the patients, continuous medical education to all the doctors, training of nurses and undertaking basic and clinical research with the focus on the needs of the country.

VISION

“Quality Healthcare for All” i.e. to provide medical care which is

- Affordable
- Value-based
- Ethical
- Transparent
- Outcome-based
- Technology and Innovation Centric

VALUES

- Work to Give
- Word is a Bond
- Act Local: Think Global
- Advance Fearlessly
- Partnership for Growth

OUR GOALS

- Social Obligation
- Professionalism
- Excellence in Performance Standards
- Self-sufficiency
- Research

ABOUT P. D. HINDUJA HOSPITAL

P. D. Hinduja Hospital & Medical Research Centre, Mumbai, which started off as a clinic in 1951, is today ranked as one of the leading multi-specialty tertiary care hospital in the country, committed to its vision of providing “Quality Healthcare for All”.

In the 1980s, the Hinduja Group pioneered the model of institutionalizing healthcare in India by combining delivery with research, academics and innovation. In 1985, the 400 bed hospital was set up at Mahim, Mumbai, incorporating strategic advisory contributions from Massachusetts General Hospital, Boston, USA, and in a short time, became the benchmark for medical treatment across the country. In 2013, the Group built another 100-bedded unit at Khar to cater to

the growing need of world-class healthcare services, providing treatment in an exclusive premium environment, catering to the patients individual needs . In 2021 the two units of Mahim & Khar were merged into one to become one of Mumbai's largest not-for-profit healthcare providers. The healthcare services at P. D. Hinduja Hospital range from investigation and diagnostics to therapy, surgery and post-operative care in more than 45 specialties. The hospital has provided medical care to millions of patients, since inception, a testimony to the excellent clinical outcomes of the hospital.

The hospital lays emphasis on development of Clinical Practice, Academics and Research – three important pillars of healthcare. Providing the best medical care are the hospital's nationally and internationally acclaimed doctors. It is also one of the largest private academic hospitals in the country with a robust research wing. In academics, the hospital runs DNB courses in 26 specialties; M.Sc. and PhD in research; a Nursing College and Allied Health Sciences courses.

The hospital was first to conceptualize and pioneer the model of 'Full Time Hospital Based Consultants' in Mumbai and is amongst the first few hospitals to have been accredited and certified by NABH, CAP, HACCP, ISO. The hospital has always been an early adopter of technology in the delivery of care; being amongst the first few hospitals in the country to have the first fully integrated robotics system – the da Vinci Xi Robot, the most advanced Leksell Gamma Knife Perfexion, Digital Broadband MRI with ambient themes, True Beam Linear Accelerator, latest PET CT and SPEC CT with Gamma Camera, and more. It was also one of the pioneers in the healthcare space to launch Care@Home, Short Stay Service and Poison Centre.

As the unprecedented COVID crisis hit the world, in 2020, P. D. Hinduja Hospital took a series of swift actions to deliver quality healthcare for COVID and non- COVID patients, incorporating appropriate safety protocols for patients and staff. The hospital set up a comprehensive state-of-the art COVID care facility in a separate building (Lalita Girdhar Tower-1) away from the main building treating non-Covid patients. The hospital also launched new services like COVIDCare@Home, a comprehensive home care service for coronavirus positive patients and a fully integrated Video / Teleconsultation service for the convenience of patients.

P. D. Hinduja Hospital continues to partner with leading international institutes, latest being an arrangement with The Division of AIDS (NIAID, NIH), USA, to establish a center of excellence for infectious disease research in India. For its contribution to quality healthcare delivery, the hospital has been bestowed with Best Multi-Specialty Hospital awards by different industry bodies. The hospital has been recognized as 1st in the Western region, 3rd amongst private hospitals in India and 6th amongst all hospitals in India in the by Newsweek World's Best Hospital Survey 2021 & 2020. The hospital was also the first hospital to be conferred with the 'Clean and Green Hospital Platinum Award' by Bureau Veritas.

In line with its vision of “Quality Healthcare for All”, the hospital provides free or concessional services to poor patients at the hospital and runs the 'Serve with Passion' rural health programme, providing free healthcare services in the rural areas of Maharashtra.

CENTRE FOR CANCER CARE

The Centre for Cancer Care offers 360 degree care to oncology patients and is one of the first dedicated oncology centres of India. Today it is a referral centre for cancer patients from all over the world and a beacon of hope in the fight against the dark & deadly disease.

The Centre is equipped to treat all types of adult and pediatric cancers, has different protocols and modalities for each type and a group approach for the cancers that involve many specialties.

The centre offers holistic cancer care with the following services:

- Surgical Oncology
- Medical Oncology
- Radiation Oncology
- Diagnostic Services
- Patient Support Groups
- Palliative Care

The hospital offers specialized cutting edge treatment in Head & Neck Cancer Surgery, Breast Cancer Surgery, Gastro-Intestinal Cancer Surgery, Neuro Oncology, Hepato-Pancreatic-Biliary (HPB) Surgical Oncology, Urologic Oncology, Gynecology Cancer Surgery, Orthopedic Oncology, Ocular Oncology, Hematology Oncology, BMT Unit with Autologous & Allogenic Bone Marrow Transplant facility

The centre uses the latest technology like True Beam Linear Accelerator, 3D CRT, IDGRT, SRS/SRT, SBRT, Da Vinci Xi Robotic System and Brachytherapy. It has a dedicated Day Care Centre for Chemotherapy and the most advanced OTs.

Recognizing that cancer patients need emotional support and counselling besides medicines, the hospital has also set up support groups, counsellors, social work services and palliative care services.

CENTRE FOR ORTHOPEDIC CARE

The Centre for Orthopedic Care provides care for a wide range of orthopedic conditions related to bones, muscles, and joints. The highly dedicated multidisciplinary team of experienced professionals provides personalized care for patients of all ages. The aim of our orthopedic medicine is to improve patients' mobility, relieve pain and help them return to an active lifestyle. The hospital has also been recognized as an AO Centre of excellence, one of the only 5 in the country and is a referral centre for most complex care in Mumbai.

The centre has renowned orthopedic surgeons, spine surgeons and rheumatologists and also provides services such as Hand Surgery, Sports Medicine, Orthopedic Oncology (specializing in Limb Salvage Surgery for bone and soft tissue tumors), Physical Therapy, Radiology, Pain Management, specialized nursing care and nutritional support.

The department treats bone and joints related issues under:

- Orthopedics
- Pain Management
- Physiotherapy
- Sports Medicine
- Spine Surgery
- Rheumatology
- Rehabilitation

CENTRE FOR NEURO SCIENCES

The Centre for Neuro Sciences offers a comprehensive care for brain and nervous system by our team of internationally acclaimed neurologists, neuro surgeons, technicians with most advanced technology and procedures. The centre is referred with major and complex cases from across the globe.

The department offers acoustic neuroma surgery, skull base surgery, cerebrovascular surgery, neuro-oncology, pituitary surgery, neuro-endoscopy, minimally invasive neurosurgery, gamma knife radiosurgery, peripheral nerve surgery, deep brain surgery and all diagnostic services including EEG, Video EEG, EMG, NCV, SSEP, BERA, VEP, ERG.

The hospital is the first in India to have acquired the Gamma Knife, which is the "Gold standard in Stereotactic surgery" for non-invasive treatment of brain tumours and vascular and functional disorders of the brain.

P. D. Hinduja Hospital's Neurosurgery department offers an international fellowship program for young neurosurgeons from across the world. This is recognised by the World Federation of Neurosurgical Societies (WFNS). Our hospital is the only such recognised centre in India and one of the 20 in the world.

The Pediatric Neurology section is a comprehensive treatment centre. The function is also supported by a state of the art neurophysiology laboratory and a Child Development Centre.

The Neuro Sciences Centre also has a dedicated rehabilitation facility to help patients with movement and function disorders. It has state-of-art of rehabilitation equipment including treadmill, cycle, ergo meter, multistation gym, neuro rehabilitation mat, staircase and ramp.

CENTRE FOR CARDIAC SCIENCES

The Centre for Cardiac Sciences focuses on holistic approach to Cardiac Care through invasive & non-invasive therapeutic & diagnostic services managed by dedicated team of highly skilled cardiologists and cardiac surgeons.

It has all state-of-the art infrastructure and facilities including :

- Advanced Cath Lab
- DSA Combo Cath Lab
- Cardiac OTs
- Stress Test
- 2 D Echo
- CTs, including CT Angiography

It offers treatment for the entire gamut of cardiac diseases including Hypertension, Arrhythmia, Deep Vein Thrombosis and Pulmonary Embolism Aortic Diseases, Cardiomyopathy, Congenital Heart Diseases, Coronary Artery Diseases, Heart Failure, Pericarditis, Valvular Heart Disease, etc. The procedures offered include Angiography / Coronary Angiography, Angioplasty, Stenting, Balloon Mitral Valvuloplasty's, Permanent Pacemakers (PPM), CABG, Left ventricular assist device (LVAD), Beating Heart Surgery and more. Cardiac rehabilitation and cardiac physiotherapy services are also provided.

The centre has a dedicated Heart Valve Clinic, where the cardiologists and cardiac surgeons together provide comprehensive and most advanced treatment for all Heart Valve related issues like TAVR or percutaneous valve replacement procedures.

DEPARTMENT OF MOTHER & CHILD

The Department of Mother & Child care is a specialized unit at the Khar facility which provides compassionate world class care with innovative and clinically proven solutions by use of latest technology through every stage of pregnancy and post-delivery. The maternity unit provides round the clock care to mothers and is duly attended by specialists and other experienced staff.

Facilities:

- Dedicated Mother & Child Care Floor
- Extensive Team of Reputed Obstetrics & Gynaecology Consultants
- Labour Suite
- Water Birthing
- Pre & Post Natal Care
- Lactation Specialist
- Foetal Medicine & Clinical Genetics

IVF CENTRE

At Hinduja IVF Centre, the issue of infertility is addressed as a 'couple issue'. Both the mother and father-to-be are holistically evaluated to provide the most workable treatment solutions, in line with the latest medical advancements. The IVF Centre offers consultations, unrivalled expertise, standardised and transparent care delivery protocols, diagnostic services, quality processes, hand-holding every step of the way from pre-conception to post delivery and treatment facilities.

The facility includes the latest equipments along with audiovisual systems where the other partner can exactly see the procedure sitting outside the theatre and culture room, with advance techniques to treat male and female infertility including physiological intracytoplasmic sperm injection (PICS) and preimplantation genetic screening i.e. PGS.

HealthFirst by P.D. Hinduja Hospital & Medical Research Centre is specially designed health check-up facility by our medical experts to help protect your health. Individuals can choose from different health check packages and also available are specialized packages for heart health, for women, for the elderly and premarital packages.

Advantages of the new HealthFirst facility:

- Exclusive dedicated facility by the hospital for health check-ups – no intermingling with out-patients, in-patients and casualty patients- because you are healthy and not a 'patient'.
- State-of-the-art medical and supportive equipment ensures accurate reliable results.
- Fast-track facility-blood, urine and sample collection at home a day prior to the test to ensure shorter time spent at the facility on the appointment date.
- Complete thorough test – not just 'fast & quick' screening.
- Soothing ambiance, with all facilities like Wifi, Television, Tablets, Refreshments and Meals to ensure a comfortable visit.

TRANSPLANT CENTRE

The hospital conducts transplant procedures in three areas i.e. kidney, liver and bone marrow.

Kidney Transplant Unit - The department provides all forms of dialysis, including hemodialysis and peritoneal dialysis. It has an active renal transplant programme with approximately 60 transplants being performed every year. This is predominantly a living donor transplant programme but the hospital is also a leading centre for cadaver donor transplant when suitable donors are available.

Liver Transplant - The department offers liver transplant for patients suffering from end stage liver disease. The transplant assessment is carried out by a team of surgeons and anesthetists.

Bone Marrow Transplant Unit - Bone marrow transplants can be used to treat patients with life-threatening blood cancers such as leukemia, diseases which result in bone marrow failure such as aplastic anemia as well as other immune system diseases or genetic diseases such as thalassaemia. The unit offers Autologous Stem Cell Transplant and Allogeneic Stem Cell Transplant.

Cornea Transplant & Eye Donation Centre - The cornea transplant and eye donation centre at P. D. Hinduja Hospital is one of the most advanced eye centres in the city. Along with taking care of eyes, the centre also provides information on the importance of eye donation.

SERVICES

IMAGING

The Department of Imaging consists of a group of highly trained professionals with national and international experience, providing the best diagnostic imaging and interventional services to our patients with the help of technology.

LAB

The hospital has one of the most advanced laboratories in the country. It is also the first lab in the SAARC countries to be CAP accredited. The Blood Bank was the first to introduce NAT Blood Testing. It offers a whole range of lab services such as Biochemistry, Histopathology and Cytopathology, Microbiology and Serology, Hematology, Immunoserology, Radioimmunoassay (RIA), Molecular Biology and Blood Bank. The department is also NABL accredited.

PHYSIOTHERAPY

The spacious physiotherapy department, spread over 1200 sq. ft., is a gateway to better health and fitness. Our facilities include state-of-the-art rehabilitation equipment such as treadmill, cycle, ergometre, multistation gym, neuro rehabilitation mat, staircase and ramp. The department also has specially imported anti-slippery wooden flooring, centralised music which will sooth your nerves, relax your mind and body as you go through the exercise sessions with your physiotherapist.

CARE @ HOME

P. D. Hinduja Hospital was the first hospital to introduce this concept. It offers medical assistance at your doorstep. The services available include a doctor's visit, home sample collection for lab testing, nursing services, physiotherapy and X-Ray at home.

SHORT STAY SERVICE

The Short Stay Service is a dedicated service for patients undergoing surgeries and procedures wherein admission and discharge can happen on the same day.

TELE/VIDEO CONSULTATION SERVICES

With our Tele/Video Consultation Services, patients can consult with our doctors from anywhere with comfort and ease.

COVIDCARE@HOME

The service offers remote care treatment for mild or asymptomatic coronavirus patients advised home isolation. A total of five packages are offered to the patients to choose from.

24X7 EMERGENCY

This state-of-the-art unit comprises of highly skilled and efficient medical team for round the clock service to patients who need immediate intervention in all types of emergencies.

SPECIALTY CLINICS

Specialty Clinics is a unique concept initiated by Hinduja Hospital in Mumbai. The Specialty Clinics offers a 360 degree approach to disease management. They provide a variety of specialty physicians, so you don't have to go out of the area for specialized care and treatment. These specialists work closely with the patient's primary care provider and other health professionals to ensure continuity of care.

- Heart Valve Clinic
- Tobacco Cessation Clinic
- Lupus Clinic

PATIENT-CENTRIC CARE

SINGLE-POINT CALL CENTER

The hospital's single-point call centre is well-staffed to manage all kinds of enquiries and is open for the public from 7am to 11pm on all days.

AUTOMATED SMS CONFIRMATION AND REMINDERS FOR APPOINTMENTS

An automated SMS is sent to all patients notifying them about the doctor's appointment, acting as reminders for them to be on time for the appointment.

CASHLESS PAYMENT FACILITIES

The hospital offers multiple online/cashless options for patients to make payment for OPD or IPD services. All kinds of debit and credit cards are accepted. Patients can also make online payments and avail certain discounts. The hospital has also introduced an EMI option for patients to make their payment.

WHEELCHAIR-FRIENDLY VEHICLE

The hospital became the first hospital in Maharashtra to introduce a wheelchair-friendly vehicle for patient transportation. The same is also available for patients who may wish to avail for pre- and post-appointment/admission.

ONLINE REPORTS

Patients can now access their reports online on the Hinduja Hospital website. The online reports are available for a wide variety of tests.

PAYMENT VIA INSURANCE

The hospital is empanelled with reputed insurance providers. We also accept employer-covered insurance services, and a cashless facility subject to the terms and conditions in the policy.

CUSTOMER CARE

Our customer care executives are available for non-medical assistance during the entire duration of the stay for a patient.

SUPPORT GROUPS AND PATIENT WORKSHOPS

The hospital runs various support groups for patients to come together, interact and help each other. The oncology department runs a support group called Mahek which does various programmes throughout the year and also participates in marathons and other awareness initiative programmes held in the city.

RESEARCH AND ACADEMICS

RESEARCH

The Research Department is recognised by the Department of Scientific and Industrial Research, Ministry of Science and Technology, Govt. of India. The hospital lays emphasis on Cardiac Genomics, Proteomics, Regenerative Medicine and Tuberculosis and more. The hospital also signed an Letter of Intent with The Division of AIDS (NIAID, NIH) to establish a centre of excellence for infectious disease research in India.

P. D. HINDUJA COLLEGE OF NURSING

The School of Nursing at P. D. Hinduja Hospital was established in 1981 by the great visionary and pioneer Late Smt. Lalita Girdhar Hinduja, who believed in providing world class nursing care to all.

The P.D. Hinduja College of Nursing has a rich heritage of over 33 years with more than 354 graduates students and 144 postgraduates students in India and abroad. School of Nursing was upgraded to College of Nursing in the year 2006.

The College of Nursing provides courses in B.Sc., & M.Sc. In Nursing, Doctor of Philosophy. The College was the first in India to start a Fellowship in Lactation Nurse Practitioner Program and more.

The students are not only provided experience in clinical areas in other reputed affiliate hospitals, they are also provided with community experience at the rural program of Hinduja Hospital and other areas.

Landmark Achievements

- NAAC 'A' Accreditation in 2012
- The only School of Nursing in India to be ISO 9002 certified
- Track record of 100% pass rate with meritorious positions at State Level examinations
- The School of Nursing has been upgraded to the College of Nursing affiliated to Maharashtra University of Health Sciences Nashik (MUHS) and approved by Indian Nursing Council (INC) & Maharashtra Nursing Council (MNC)

LIVE TO GIVE HOPE

Live To Give Hope (LGH) is a fund run by the hospital that provides free or concessional services to poor/needy patients at the hospital and runs a comprehensive rural health programme . LGH is a movement where money is not a constraint for assistance.

CHARITY AT HOSPITAL

The hospital provides free or concessional treatment to poor and needy patients who cannot afford it. The extent of concession is based on the socio-economic status of the patient.

RURAL HEALTH PROGRAMME

The hospital runs the Serve with Passion rural health programme, under which free healthcare services are provided to the tribal areas in Maharashtra. There are 12 Mobile Health Units that work in a hub and spoke model covering around 33 villages in these identified areas. The programme has seen more than 3 lakh patient visits. Apart from providing healthcare access to the poor, the hospital also conducts health education programmes for children and adults and special camps. The Hinduja Hospital's Serve with Passion – Rural Health Program also won the Excellence Award in the CSR Project category at the Healthcare Management Asia Awards in 2018 and is also recognised by the Government of Maharashtra.
